eDelivery

eDelivery is fast becoming a standard way for smart providers to simplify and automate the patient billing and payment process. eDelivery saves you money by eliminating the need to mail paper invoices and payment receipts.

Using eDelivery, your patients receive an electronic notification when an invoice or payment receipt is available and they have a convenient option to view, print or save their documents.

Not only does eDelivery benefit your business, it also offers many benefits for your patients.

- **Cost savings: Saves you money on paper and postage.**

- **Time savings: Faster delivery time than waiting for US mail.**

- **More informative: Patients are advised of their balances faster than waiting for a mailed invoice.**

- **Increased customer satisfaction: No more lost mail or 'I didn't get that in the mail' comments.**

More and more patients expect electronic billing and payment options from their healthcare providers. Offering the convenience of eDelivery can significantly improve your patients' experience.

eDelivery is a win-win for both you and your patients. What's not to love?
