

Unify your business with one platform that handles it all

Disconnected technology and manual workflows do more than slow you down. They cost you time, revenue, and patient satisfaction.

Brighttree is designed to simplify the complexity of HME and DME operations with a single solution that handles it all.

Essential features built to align your business

End-to-end revenue cycle management:

Automate billing and reduce denials

Unified clinical, business, and billing:

Bring every function into one solution

Real-time analytics and regulatory support:

Gain insights to improve performance and make confident decisions

Automated resupply systems:

Complete more orders and support accurate documentation and compliance

Need RCM support? Brighttree's got your back.

Don't let revenue cycle challenges slow down your HME business. Brighttree's RCM services work with your team to help streamline claims, reduce denials, and keep cash flowing.

Now's the time to rethink what technology should do for you. Learn why thousands of providers trust Brighttree. Visit **[brighttree.com](https://www.brighttree.com)** or call **1-888-598-7797** to get started.
