

Accelerate your business success

Harness the power of your Brighttree solutions by working with our experts to streamline workflows and enhance efficiency.

Fine-tuning your systems and processes sounds great. But who has time for that? **You do.** Brighttree's professional services group can help your entire company run more efficiently.

"They helped us map out our previous process and adapt that to the Brighttree model. It was incredibly important, and I can't speak highly enough about the team."

Edward Marlowe, Director, UNC Health Care System

TRAINING SESSIONS

Operational and pharmacy experts work with your staff on-site or remotely to develop deep expertise with your Brighttree software. Choose from sessions on reporting, onboarding, revenue cycle workflow or other key areas.

CONSULTING

Work with our experts to implement Brighttree best practices that can boost your business performance. Whether you want to improve patient intake, do a workflow analysis or develop KPIs, we can help.

BRIGHTTREE UNIVERSITY

Sharpen your skills and gain in-depth knowledge during in-person or virtual courses. Sessions include billing and AR best practices, document management, reports, platform optimization and more.

DATA SERVICES

Leverage the full power of Brighttree's data services to increase efficiency. Tools such as our database, GL extract, custom data extracts, and price table load help you streamline your business operations.
